Subject: Navy to be identified as a potential liable party at Gorst Creek Landfill
Signed By: dina.ginn@navy.mil

Greg:

In follow up to our phone call; Nancy reiterated NBK as the property owner would be the appropriate addressee for the official PLP notification.

Below is a summary of the background information for the rest of the ENV team.

Thanks,

Dina

Background:

I received a call from Deb Yamamoto at EPA Region 10 regarding the Gorst Creek Landfill. EPA has identified the Navy as one of the potential liable parties and will be sending a PLP letter notifying the Navy as such. She wanted to assure it was addressed to the correct Navy entity.

Nancy Glazier recommended it be sent to CAPT Olson as Commanding Officer of Naval Base Kitsap with a copy to NAVFAC NW.

Counsel advised that NBK would be the "legal owner" of property from which material potentially was deposited into the landfill (was PSNS at the time) and therefore the accurate legal recipient of the notification.

Action regarding the PLP letter would be taken on CAPT Olson's behalf by NAVFAC, therefore, copy to NAVFAC NW.

The property is not currently listed on the NPL, however, Nancy advised EPA can take action if they determined the site is an imminent threat. I asked for a status update of the property for our information.

Addresses have been provided to EPA.

Deb:

A follow up for your voice mail, NAVFAC NW Counsel recommends a PLP letter for the subject site be sent to Commanding Officer Naval Base Kitsap with a copy to Commanding Officer NAVFAC NW.

You probably have already identified these addresses, however, I thought I would forward:

Commanding Officer Naval Base Kitsap
120 South Dewey Street
Bremerton, WA 98314

Commanding Officer Naval Facilities Engineering Command Northwest
1101 Tautog Circle, Suite 203
Silverdale, WA 98315

If you have any additional information that you can share with regard to the status of this project that would be appreciated.

Thank you,

Dina
